WHY ETERNAL FLOWERS

LONG LASTING & ALLERGY FREE

Thanks to the preservation process they undergo, eternal flowers last for a year+ without compromise to their aesthetic. As a bonus, the flower's pollen deactivates in the process, making them allergy-safe for your guests or family.

MAINTENANCE FREE

No water, no sunlight nor any type of care are required for the flowers to stay alive for 365+ days - saving yourself hours of flower maintenance every week. A fantastic alternative for busy charter yachts with a back to back schedule, for yachts that travel off the beaten track and are not able to receive weekly flower deliveries.

ECONOMICAL

Thanks to their long life span of a year+, our flowers are a one time investment and are guaranteed to lower your annual decoration budget by at least 40%.

SUSTAINABLE & ECO-CONSCIOUS

Eternal flowers are 100% sustainable thanks to their long-life span, they cut down on production and transportation which results in lower carbon dioxide emissions. Even more, the floral foam we use is 100% natural, made exclusively of Basalt and cane sugar, the only fully degradable and natural florist foam to ever exist.

ENDLESS POSSIBILITIES

Eternal Flowers can be used in a vast array of situation.
As loose heads, pre-made arrangements, long-stem bouquets, anything is possible.
The preserved flower variety we use includes but is not limited to:

WHEN SCIENCE MEETS NATURE

Eternal flowers are real, natural flowers that have been harvested at their most perfect shape and treated with a specific mixture of 100% plant-based, biodegradable preservation formula.

This formula replaces the flower's natural properties effectively creating a unique and 100% natural product that will stay fresh and beautiful for months on end, without watering or light.
